

The Intelligencer.
TUESDAY MORNING, APRIL 10.
Yesterday was a bright, sunny day, but a little cool.

The funeral of Mr. William Otterson yesterday was attended by a large concourse of people. He was beloved by all who knew him.

The Rev. Professor C. L. Loos, of Bethany College, preached before the congregation of the First Baptist church, in Pittsburgh, on Sunday, to a large and attentive audience.

In the police court yesterday, August Migez, whose case was charged to the morning, was fined \$5 and costs for stealing the market; Patrick Moran, for disorderly conduct, was fined \$10 and costs.

The champion teamman, James H. Kelly, has secured a large number of passages to Europe, and will leave Pittsburgh on the 15th inst., and leave New York the 21st, for the grand international sailing match. His friends are sanguine of success.

We call attention to Dr. Randall's advertisement. Many of our citizens will remember the Doctor's former visit. Those afflicted with corns and bunions should call on him at his rooms in the McClure House.

RIVER NEWS.—The river was swelling yesterday evening, with fifteen feet water in the channel.

The Police arrived from Cincinnati yesterday and will leave on their return this afternoon, with Captain Charles Muhlenberg, "overboard" and Chris. Young, "underboard" in the office. A hint to the wise, etc.

The regular packets make their usual trips.

The new Postal Law, adopted a few days since, provides that all dead letters shall be returned to the writers, free of charge. The issue of money orders is less than twenty dollars, and the charge of ten cents, therefore, that shall be good if presented within a year after date, but no longer. In case of loss of the order it may be duplicated without charge. Railroad companies shall carry persons on charge of the mails free, and all such matter as the Postmaster General may direct. For injuring or defacing mail, or for depositing in any receiving or delivery box, a person can be fined \$1,000, and imprisoned not more than three years.

Sorghum and Buckwheat.—We acknowledge, through courtesy of J. Y. Moore, Esq., Clerk of the United States District Court, the receipt of a sample of fine sorghum syrup, produced by Dr. A. P. Barnes, of Clarksville. Our readers may remember that Dr. Barnes has discovered a new method of producing sorghum syrup, and that he makes this single plant supply that superb combination "buckwheat cakes" and "sorghum syrup," as good as his sorghum syrup, the Doctor has a good thing of it.

INASMUCH as we have a river near us, and it is now rising, and it is generally supposed that the water runs down, we will state that at Cleveland, Ohio, the other day, the Cuyahoga river suddenly ran about two feet higher than its bed, about four o'clock, when, from some cause, the water began to flow in an opposite direction from the lake. The water was blowing in a breeze from the south, which makes the matter more singular. In the face of this, it is not a "blow" from the lake, but a wind from the south, which makes the matter more singular. In the face of this, it is not a "blow" from the lake, but a wind from the south, which makes the matter more singular.

A new hat for ladies, which is very beautiful, is described under the name of a "Rush-rose" hat—not that there were any roses used in the trimming, but it is a hat of a light rose color, with a delicate tint. The shape was the "Soft" hat. The sides and brim were composed of plain, flat bands of cactus hair, and the crown was made of a rose-colored silk—the lining of the brim, and indeed of the whole hat, was of the same. The hat, being distinguished, assumed a rosy tint from the lining, on one side the rim was turned back and fastened with an aligrette—two pink ostrich tips adorned this side.

ALL who wish to learn the art of telegraphing will be interested in the advertisement of the Wheeling Commercial College in this day's issue. Messrs. Mitchell and Creasey, with the able assistance of Mr. O. H. Smith, Superintendent of the United States office in this city, are putting students through in all the minutiae of the "mystic art." Upon first entering the college one is impressed with the idea that we have made a mistake, having entered a telegraph office instead of a law, but the surroundings soon set us straight, and prove that this institution is carried on according to the most approved and thorough manner.

BUMBLING in this city have become an every day or night occurrence. They are not only common, but seem to have a passion for heavy clothing, which fact appears strange to victims of their number. It is not a "blow" from the lake, but a wind from the south, which makes the matter more singular.

The night assault upon men on the street, which was so frequent a week or two ago, has been continued, and the loose "jail birds" are devoting their undivided attention to stores, shops and private houses. It stands our citizens in hand, and their doors well barred and their windows tightly fastened down.

FEDERAL COURT.—J. J. Jackson, Jr., presiding.—The Court re-assembled yesterday morning.

WORKMEN have commenced tearing down the group of buildings on Main street, just west of the Merchants and Mechanics Bank, to make room for a large block to be erected there, four stories high, by Messrs. George R. Taylor, W. F. Peterson, J. C. Orr & Co., and Mr. Little, J. G. Orr & Co. have removed the Monroe street.

CITY ITEMS.
SHAKE, SHAKE, SHAKE. There is no need of it! Use American Life Drops and stop the Ague.

MERIT is really the secret of success. Root's Pesticide quite proves it—Rumination.

This firm by long business experience, and the employment of first-class hands, is able to furnish fine, nice, good work, and on fair terms. Patronize them.

Why not use the best, no humbug, no hair no pay. Ring's Ambrosia is warranted to restore the hair to its original color and lustre. Bright hair is changed to a beautiful auburn. It supercedes Hair Dressing, while it neither injures the texture of the hair or colors the skin. It will prevent and cure baldness. As a Hair Dressing it is unrivalled! A few applications will convince the most skeptical of the truth of the above statements. For sale only by O'Brien, Chemist, End of Stone Bridge.

It is not claimed that Piso's cure for consumption will cure every case of pulmonary disease nor every cough—but that it will cure many more than any other medicine. Now to give every one a chance to try it, it is agreed to repay to every one who tries it and finds it not adapted to his particular case. For sale only by Edmund Bocking, No. 1 Odd Fellows' Hall.
